REVENU STREAM FOR THE AUTHOR

REVENU STREAM FOR THE AUTHOR'S INHERITORS

Idea

- copyrightevidence.org is a great resource

- to enable people to discover more discussion around copyright, we wanted a **fast search**

Challenges

- it's hard to get data out of the [media]wiki

- making sense of the data

Approach

- scrape the wiki

- extract text PDF

- index into elasticsearch

- responsive frontend

Technology

- Python, JavaScript, elasticsearch, Illustrator, R

  seem to be working - losses are increasing. This study examines factors that influence an individual's attitude toward pirating dig
  l pirating is influenced by beliefs about the outcome of behavior (cognitive beliefs), happiness and excitement(affective beliefs),
  ers (subjective norms), and machiavellianism. Given these results, measures can be developed which could alter attitudes toward dig

Outlook

- search is a powerful paradigm

- add more data sources, recommended readings

- apply more text analysis
